

OOP Final Project: Pong game in Java

Name: Sulthan from L2CC

Student ID: 2502020075

What is pong?

Pong is a game where a player or 2 players control a rectangle-like shape to prevent the ball from going into your goal. It is similar to tennis.

Java implementation

It will have GUIs, and have some concepts of swings, and OOPs.

Tools (More to be added down the line)

1. Swing
